

MiGreen DEAL

Raising climate change awareness and environmental commitment of Young Migrants through Transformative Learning

MiGreenDeal is an Erasmus+ project (2022-1-BE01-KA220-ADU-000087260). The project aims at implementing innovative practices and digital solutions in adult education in order to **prepare migrants and adult educators, community leaders and mediators to become real agents of change in promoting environmental sustainability and in the fight against climate change.**

The project runs from September 2022 till February 2025 and its main outcomes are the following:

- **Training curriculum** on raising environmental awareness and commitment of young migrants through Transformative Learning.
- **eLearning platform** for online course for adult educators, community leaders and mediators.
- **Personal Roadmap** and Toolkit for adult educators, community leaders and mediators

MIGreenDEAL kick-off meeting in Valladolid, Spain

The kick-off meeting and the 2nd transnational meeting of the MiGreenDeal project, hold in Valladolid (Spain) and Dublin (Ireland) respectively, have been successfully realised. These meetings provided a great opportunity for project partners to come together and discuss important aspects of the project.

The meetings helped in establishing clear goals and objectives, defining roles and responsibilities, and developing a common understanding of the project's overall direction. With the successful realization of these meetings, the project is now on track towards achieving its intended outcomes.
